## "The Madwoman of Chailiot"

### Drama Club to Present Play Friday-Saturday

By Linda Knibbs

Oil in Grayling? The lure of the black gold is an underlying force in "The Madwoman of Chailiot," to be presented by the GHS Drama Club at 8 p.m. Friday and Saturday nights in the GHS gym. The play is under the direction of Sherin Hawks.

The production is Miss Hawks' first since coming to Grayling this year as English teacher and drama coach at Grayling High School. She chose the three-act play in an effort to include over

35 students in the all-school event. "The play is a chance for everyone to get involved in a dramatic program," Miss Hawks said. "The Madwoman of Chailiot" reveals the unhappy fate of opportunists who try to succeed by cheating humanity. A group of people issuing stock in a non-existent corporation are trying to find a product to sell. Their problem is solved when a man appears who claims oil is flowing under the streets of Paris. The madwoman of Chailiot,

played by Marcie Kaiser, overhears their discussion and realizes the oil is under her cafe. She invites these people to the basement of her home where they hope to find an entrance to the oil well through the sewers.

The rag picker, played by Mary Kay Hunter, narrates the events as she views them. She decides to try the opportunists in a mock trial and asks the street people to serve as jury. The opportunists are found guilty of exploiting humanity.

When they arrive at the madwoman's home, the opportunists are anxious to enter the sewer and locate the oil. She shows them the door in exchange for a gold brick and they disappear into the sewer.

The stage is designed in three levels. The bottom level is on the gym floor to include the audience in the action, Miss Hawks explained.

The set design isn't realistic, she added, and the audience must use their minds to visualize the scenes. The set was completed by the student stage crew and Marcie Kaiser, GHS art teacher.

Play rehearsals were staggered because the split school schedules made it difficult to have the entire cast rehearse in one evening. Some of the afternoon practices were handled by Margaret Tinker, student director.

A list of production members includes Gayla Peterson, makeup director; Paul Sojka, lighting director; Sam Mead, program designer; Doug Slater, music composer; Marie McIsaac, singer; Jane Pettengill, Lynn Koika, Marianne Kaiser, Wade Gee, Jay Wooley, Sam Mead, Holly Knibbs, Jim Steers, Barbara Minor, Bill Hatfield.

More cast members are Greg Wert, Pam Zimmerman, Janet Newberry, Kathy Johnson, Betty Konvicka, Tom Stanton, Tim Keese, Julie Golnick, Irene Sorenson, Lark Wooley, Nancy Funck and Mitzi Riggs.

Others are John Messenheimer, Virginia Stanton, Lee Ann Persing, April Thayer, Janice Trudgon and Betty Brozo.

Tickets are on sale from any Drama Club member or at the Grayling Pharmacy at 75 cents for students and \$1 for adults. The price will be 25 cents more at the door.

### Asks Exam on Murder Charge

Mrs. Irene M. Nemetz, 57, of Frederic, demanded examination when she was arraigned before District Judge Francis L. Walsh last Tuesday on an open murder charge.

Examination is set for this Thursday, and she was returned to the Crawford County jail where she is being held without bond.

Mrs. Nemetz is charged by the Grayling State Police with the fatal shooting of Walter L. Denton, 37, of Lincoln Park, early Tuesday, Nov. 10, at her home northwest of Frederic on Cameron Bridge Road.

### Need for Blood!

The Red Cross blood program in Crawford County provides many benefits that most people are not aware of unless they have had occasion to receive them.

The program does provide all of the whole blood used by Crawford County residents, regardless of whether they are hospitalized locally or away from home.

In addition to whole blood for transfusions, a number of derivatives, or by-products of blood, are also made available. Whole blood has a useful life of only 21 days during which it can be given as a transfusion. Beyond this point, it loses its effectiveness in this form.

### County Deer Kill Average

Scene at Grayling's "Buck Pole" by Noon Sunday (Photo by Doug Morgan)

Perfect weather greeted the deer hunters when they opened the season in Crawford County on November 15th. Temperatures were at 20 degrees and the weather was clear. The only thing lacking was tracking snow.

It was 8:30 a.m. when Jay Stephan, Jr. of Grayling brought into the Chamber Buck Pole the first deer and buck. The buck weighed in at 100 pounds. Louis Perry of Drayton Plains brought in the second buck at 8:40 a.m. The next eight deer came in quickly — Jim Manning of Whitmore Lake; Stu Capling of Grayling; Rick Fields of Detroit; Ron Kelley of Lansing; Don Davis of Plainwell; Don Powell of Alma; Carol Thorp of Grayling; and Ron Goshen of Ypsilanti. These ten people won the prizes awarded for the "First 10 Deer To Be Hung On the Deer Pole," each a \$10 gift certificate. Jay Stephan, Jr. also won the gift certificate of \$35 for the "First Buck On Deer Pole." Mrs. Thorp also won the gift certificate of \$15 for the "First Woman Hunter Bringing A Buck In."

Worthy of mention was a beautiful buck belonging to Charles Gabriel of Frederic, a 10 pointer weighing in at 176 pounds — another large buck shot by Dan Hively of Grayling tipped the scales at 182 pounds with a large 9 pt. rack.

The most perfect rack to date is a 150 pound 10 point buck shot by Richard Cairns of Westland, Mich. The youngest hunter to date is Lester Tacey of Essexville, who is 14½ years old.

Business was brisk throughout the weekend with businessmen of the area reporting that opening weekend is as good as last year in the face of downstate strikes and generally lower economic activity.

The Vikings led the league in defense this season as they allowed only 46 points against them, while accounting for 26 points scored by the squad, as the Vikings ended the season with a 7-0-1 record and shared the league title with the Mancelona Ironmen.

### Girl Scout Neighborhood Meeting

The monthly meeting of Girl Scout volunteers was held at the home of Mrs. Kay Ellen Juntila, neighborhood chairman. Plans were made for investiture ceremonies for new Brownie troops, and it was announced that two new Brownie troops have been organized in the Frederic area, which is in the Grayling neighborhood.

Leaders of Junior and Cadette troops announced a service project selected by the girls, which involves the collection of Betty Crocker coupons which would be collected from local residences

by the troops and turned in for credit on a whirlpool machine for the Grayling Hospital. The final collection date for coupons is December 12, and the troops hope for community support for this project.

A uniform exchange is being established and leader in charge, Kitty Buron, suggests that anyone needing a uniform or having one to dispose of, contact her at 348-9953.

It was reported that Girl Scout calendars are selling well, and a recommendation made that more be ordered for next year's sale.

### Suffers Broken Back In Rescue of Man From Fire

Would you climb a ladder three stories to save an elderly man's life during a fire?

If you were Robert Mahaney, 39, father of eight the answer would be yes, for this is exactly what he did.

During the early hours of November 5 a fire broke out in the Traverse Hotel, Traverse City — a hotel largely occupied by elderly people.

Mahaney in the company of

several other Graylingites happened on the scene. While watching the fire they noticed a man trapped on the third floor of this six story hotel and although a ladder was placed up to the room no one made any effort to rescue this man. This is when Robert Mahaney made his decision to go get him.

While carrying the man down the ladder the elderly gentleman panicked causing the bot-

to fall 10 or 15 feet to the ground. Mahaney struck the ground first and the other man fell on top of him.

The result was, according to preliminary examination by doctors at Munson Hospital at Traverse City, that he had injured his back again.

The first time, Mahaney's back was injured was the result of wounds received during the

then and the new injury was in the same area.

He was returned by car to Grayling since nothing could be done for him at Munson. According to Mitchell Piekala, the driver of the car and his companion on their fishing trip, Mahaney was in terrible pain as a result of his injury. He was taken to Mercy Hospital where

### Lake City Paper Changes Ownership

The Waterfront — a 3,700 circulation weekly newspaper in Lake City and the only newspaper published in Missaukee County — is under new ownership and management this week.

Mr. and Mrs. Ross G. Bradley have sold The Waterfront, which they started in 1957, to a new publishing company — Lake City Waterfront, Inc. — composed of four men involved in publishing several other Michigan weekly newspapers.

New publisher of The Waterfront is Alfred R. Bransdorfer of Reed City, who also is Editor and Publisher of The Osceola County Herald at Reed City and The Clare Sentinel at Clare. Mrs. Bradley will continue at least temporarily as Editor of The Waterfront.

Officers of the new publishing company are the same as at Reed City and Clare. They are: Richard L. Milliman of Eaton County, Publisher of The Livingston County Press at Howell and The Grand Lodge Delta-Waverly Independent at Grand Lodge, as president; Bransdorfer as vice president; Richard A. Jones as secretary; and R. Dana MacVay as treasurer.

Milliman, Jones and MacVay — along with Howard Madsen and LeRoy Papendick of Grayling — also comprise the ownership of The Crawford County Avalanche, Inc., publisher of the weekly newspaper at Grayling.

## Letters to the Editor

Nov. 10, 1970  
Howard D. Madsen, Editor  
Crawford County Avalanche  
224 Michigan Ave.  
Grayling, Mich.  
Dear Mr. Madsen:

Tonight I read a disturbing article in the Bay City Times (Nov. 10, 1970). Perhaps your paper of Nov. 11, will carry the full

City Council proceedings of the Nov. 9 meeting but I wish to voice my concern to you and all Grayling property owners without delay. Prior to the Nov. 3 election I wrote to you concerning the city income tax proposal for street improvements. Unfortunately I missed the editorial deadline. However, my original comments still apply.

I am irate tonight at the incredible action of the City Council in passing a special assessment ordinance. To quote Mr. Valusek, this ordinance "will permit practically any improvement." Let us back up a moment. The original income tax proposal would have reduced property millage. Vote no. 2 was straight income tax as was vote no. 3 with the "street improvement" provision tacked on. After three defeats on the income tax I now find the Council has taken an action with no public discussion to assess property owners for "improvements." Doesn't the Council believe in a majority vote? Doesn't the Council listen to the majority? Is my privilege and right to vote on major City programs calling for more of my money now stripped away from me? This action sounds too much of an autocratic dictatorship. Enough!

Mr. Valusek, speaking for the Council (I assume), said over WGRY radio on Nov. 4, that street and drainage improvements were estimated two years ago to cost \$1½ million. With inflation what is, that figure is now too low. The vague information contained in the word "improvement" is not enough for me. I suspect that "improvements" may mean just new pavement. Nearly all of our streets are without proper grade levels in relation to properties, curbing, and storm sewers. To merely pave existing streets is to perpetuate the problems of chuck holes, standing water and busted pavement edges. To put in only proper grade levels and pavement is going to leave many homeowners with flooded front yards, mine included. Hence, curbs and storm sewers are necessary. The present street maintenance is a shame if not a crime. It now takes weeks and months to even patch streets. Until an election comes up — notice the sudden improvement? Is it too much to ask of Grayling to present a well explained, well planned, openly and honestly discussed program that could be well executed? Perhaps if such a plan had been presented on "street improvements" the original vote would have passed. This county and this city needs truthfully informed citizens working together. Deception and secrecy must end.

Sincerely,  
Warren G. Yoder

look what i haven't got

A child can be proud of a missing tooth. She knows it will grow in later, better and stronger than ever.

It's different with the opportunities a child may be missing!

Like the opportunity to gain the spiritual and moral foundation for adult life... and the opportunity to gain inspiration and example from the religious faith of parents... and the opportunity to find wholesome interests and friendships among the boys and girls at church.

Sure, she points today with pride to a missing tooth. But what if her parents continue to deny her the precious opportunity for religious training? What if she is forced to grow up without the faith and moral conviction life constantly demands?

WILL SHE BE PROUD OF WHAT SHE DOESN'T HAVE?

## Servicemen Deserve Better

History may record a grievous error in popular U.S. understanding of the Vietnamese war. According to one student of the subject, columnist Bruce Bissat, "For hundreds of years, the Vietnamese of the Red River delta around Hanoi have been highly aggressive. They once swallowed up much of Laos and Cambodia, and it is they who colonized South Viet Nam by wiping out the ancient Champa empire. The big doves love to describe our fighting in Viet Nam as 'genocide'. They are peculiarly mute when looking at the real genocide the North Vietnamese and the Viet Cong have visited upon thousands of South Vietnamese. They have wiped out a whole class (chiefs, teachers, etc.) of able, irreplaceable South Vietnamese leaders—real or potential. The Hanoi-VC flags are drenched in the blood of innocents, and young Americans who wave them are cruelly color-blind."

It is unthinkable that the distorted image of the Vietnamese war, as drawn by those who have opposed the war with more frenzy than fact, should go down in the history books as the factual record. The thousands of U.S. servicemen who have given their lives to uphold the principles of freedom and honor deserve better treatment at the hands of their countrymen.

TALLASSEE, ALA., TRIBUNE: "Grocers' Advocate says, a taxpayer recently moaned 'I owe the government so much money, they don't know whether to throw me in jail or recognize me as a foreign power.'"

Women of the Moose

Lucille Tetting, Lillian King and Wilma Sunday went to Marshall for the Mid-Season conference and convocation. Wilma Sunday received her Green Cap. Congratulations.

Now we only wish all of you had been there to hear what the W.O.T.M. really stand for. It is not what we get out of it. We can get something out of it, if one wishes to work hard. Not only for oneself but for the help-less aged, the children who may be without a mother or father, or both, to have a place to live and learn. All it takes is for all loyal members to work.

When asking someone to join, tell them why. What the Moose really is, besides what one gets. If each one of us will really learn what it is that we are trying to do for so many whom are in need, much more than oneself. Yes, as we heard at Marshall, it is hard for a lot of us to give, but really if one can give just a little maybe there is someone who can give a little more, and when it is all put together it will all help.

Why not give it a try. Show up at the meeting and learn what you can do. As chairman, officers, co-workers. A lot of us say, I don't get anything out of it. You sure can if nothing else than the knowledge you may have helped some elderly person or some young child have a place to live and sleep and learn. And yes, even graduate from college.

Come on girls, let's all be "Angels". Talk Moose and get going. Put our Moose chapter #827 on top.

Loretta Johnson, publicity

## Some Election After-Thoughts

The 1970 election campaign is over in Michigan, to a loud sigh of relief to most of us. And now the real fun is about to begin in earnest.

The next couple of years—or more likely four years—are going to be highly interesting ones in the state capitol in Lansing.

The governor's office for those four years will be operated by a Republican—Gov. William G. Milliken. The state senate will be evenly split for the next four years, with 19 Republicans and 19 Democrats and a Republican lieutenant governor as presiding officer. The state house for the next two years is firmly in control of the Democrats. The elected state administrative offices—secretary of state and attorney general—will be controlled by Democrats who won big election victory margins.

Meanwhile, where more and more decisions are made—in the state supreme court—two conservative-oriented justices will be replaced by two liberal-oriented new justices, as Justices John Dethmers and Harry F. Kelly take their leaves and new Justices John B. Swainson and G. Mennen Williams don their robes. That will provide a lineup of five Democrats, one Republican, and Eugene Black, who has been in both parties and presently is in neither.

Yes, it will be an interesting life for Michigan's governor, surrounded almost completely in

Michigan officialdom by the opposite political party.

This is a rather strange combination of public officials ordered by Michigan voters to attempt to cope with Michigan's problems.

The Republican governor will have the power to propose, and the power to oppose, through his veto power and his party's strength in the senate.

The Democrats, however, with strength in various parts of government, will have no natural leader. Sander Levin will be titular leader of his party, as the most recent candidate for governor; but he will be out of office, with no political base.

Thus, a testing period between the two parties is almost inevitable until they arrive at some political accommodation, and an acceptable order of one sort or another is established.

But another thing that most likely will result because of the partisan situation is that no sweeping changes are very likely in the legislative area for the next two years at least. Each party will have to take into account the fact that it does not control everything. As a result, compromise is necessary on every piece of legislation that makes its way through the law-making process.

Some random thoughts on the election:  
—Probably one of the most unsettled principals in the 1970 election would be Justice John R.

Dethmers, who lost his race for re-election. After all, Dethmers had been on the court for 24 years, and had won election three times, without too much problem. But this time, he ran a poor and distant fourth in a field of four. What did he do wrong? What could he have done differently? Why did the voters turn him out? Mr. Justice Dethmers probably will be wondering for a long time.

—The magnitude of the political problem facing Michigan's Republican party is outlined in the first part of this essay, and the job it faces is staggering. Michigan basically is a Democratic state, and to win on a statewide basis, any Republican candidate obviously must appeal to more than Republicans. If you were running the Republican party, how would you approach it?

—The value of transfer in politics is slim at best; according to the 1970 election results. Look at the vote on Proposal C, to prohibit public aid for private schools. Every major candidate opposed it; many of the most prestigious public figures in Michigan—the movers and shakers of the state—formed a Detroit-based committee to oppose it. And yet Proposal C passed with a very healthy margin. Obviously endorsement is not very important—the voter still judges issues by himself, when he's interested enough.

Pass, Please  
Five hundred million pounds of popcorn-on-the-cob is the current yearly demand in this country. Popped, it would be enough to supply a quart a year for everyone.

Fattening

In early Egyptian, Roman and Greek times, fruit pies and tarts were the finale to long, drawn-out banquets that included every food known to man.

Strange Sounds

Earth, like the planet Jupiter, sporadically emits low-frequency radio signals which still mystify scientists.

## The Billion Dollar Beer Mug

The Billion Dollar Beer Mug plays an important role in helping keep the American economy on the move, strong and dynamic! Before beer reaches the consuming public it employs 60,000 workers in the brewing industry alone and 1 million in collateral and support businesses and industries, paying \$1.5 billion in state and federal excise taxes, over \$2.7 billion in wages to employees, and distributors, and \$1 billion for agricultural products and packaging. In Michigan and throughout the nation beer is good business.

During her reign she will visit communities throughout the state as health ambassador telling of the work of tuberculosis and respiratory disease associations in their fight against breath-stealing diseases and encouraging support for the Christmas Seal Campaign.

## Vets Home Bill Signed Into Law

A major piece of legislation designed to assist millions of veterans to get homes of their own was signed into law October 23 by President Nixon.

One provision wipes out an ending date for GI loan benefits for all veterans who served after January 31, 1955, and also restores these benefits indefinitely to 8.9 million Korean Conflict and World War II servicemen who did not use them earlier.

Another provision offers a veteran for the first time a program of loans for mobile home purchases — up to \$10,000 for a mobile home alone; up to \$17,500 if he gets a lot to place it on.

A third authorizes VA to make direct loans in any part of the country to certain seriously disabled veterans who are entitled to specially constructed housing. Administrator of Veterans Affairs Donald E. Johnson also called attention to provisions of the new law which:

Eliminates a VA funding fee of .5 percent on guaranteed a direct home loans to veterans who served after January 31, 1955.

Authorizes VA to guarantee loans to refinance existing mortgage loans or other liens on homes owned and occupied by veterans, and allows borrowers to pay lenders any required discounts. The guaranty may be for 60 percent of the loan, or \$12,500, whichever is less.

Authorizes VA to guarantee 60 percent, or up to \$12,500 of loans for veterans to purchase family units in condominium projects insured by Federal Housing Agency.

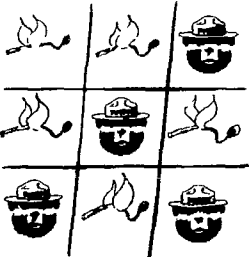

Eliminates January 31, 1975, as the terminal date for VA's direct

Fancy shaped macaroni products may add variety to dishes, but they are usually more expensive than the more commonplace shapes.

If mold appears on Cheddar cheese you are storing, you can safely scrape off the mold and enjoy the rest of the cheese.

Cheese popcorn is a good cold weather snack. Place 2 quarts freshly popped unsalted popcorn in oven-proof bowl. Dot with 1/4 cup butter. Sprinkle with 1 cup grated Parmesan or Cheddar cheese and 1 teaspoon salt. Heat in a slow oven, 300 degrees F, for 12 to 15 minutes. Toss well. Makes 4 to 6 servings.

Substituting milk for water when preparing cooked cereal lends a delicious flavor as well as extra nourishment. Follow the package directions using milk as the liquid.

Bay leaves, once used to crown Greek heroes, are now prized as a seasoning for stews, soups, meats, pickles, sauces and fish.

**DOUGHBOYS**... Student bakers at Ft. Benning, Ga., learn how to make donuts at the pastry school established by the 197th Infantry Brigade. Students learn how to make all types of goods, from pumpkin pies to cinnamon rolls. Their handiwork winds up in brigade mess halls.

## You Can Help Improve the Environment

By Willard Bosserman  
County Extension Director

What can we do to protect our environment was a question often asked at the Higgins Lake Extension group Thursday, Nov. 12.

The inquiries came after evolutionists had painted a gloomy picture of our chances of survival.

Certain things we can do locally. Other things we must leave for higher level governmental units.

The lake improvement boards organized for Houghton Lake and Higgins Lake is one local effort made to improve our environment. Their accomplishment will depend upon local support. That is where you come in; you can support the lake improvement board.

Zoning is another local effort to prevent the future deterioration of our environment. It helps prevent the development of wet swampy lands for residential purposes. It prevents the other development of certain areas where too many septic tanks would threaten the drinking water. Progressive land developers welcome zoning.

You can do your part to improve your environment by supporting your local government in their efforts to protect it with zoning.

Local subdivision control ordinances will help prevent slum development. Many of these are hastily approved because local officials want the added tax base. Some of these later become a drag because the whole township or whole county helps put in improvements that should have been incorporated in the development from the start.

Too often we are for environmental improvement when it involves some one else. We are in favor of forcing industry to clean up. We are for some other communities taking their effluent out of the streams and lakes. We are less willing to impose regulations upon ourselves which are designed to improve the environment.

We are for lake and stream improvement if the state or federal government will pay the bill, but are less apt to impose a tax upon our selves to improve the lake we live near.

The people of Grayling have taken a big step to take their effluent out of the AuSable. They bonded themselves to do this. Denton and Roscommon townships are in the process of getting central sewer systems to keep nutrients out of Houghton Lake.

Local people are taking steps to improve our environment.

We have up until now used our dollars to improve our standards of living by buying convenient goods. We bought all kinds of labor saving devices including throw away containers.

Now, just to survive we may have to take some of those dollars to buy life itself. We will

Heros

Are Made

By Jim Fitzgerald

"Why are you taking two coats to the football game?" my wife asked as we drove down the highway.

"It's easier than getting a tattoo," I explained.

"What does that mean?" she asked.

"It means I'm too rugged to be suckered by this fancy, frilly, got-to-have-a-gimmick world," I explained.

"Forget it," she said. "I'm sorry I asked."

"But I want you to understand," I said. "It's important to you. Everyone else at the game will notice my extreme virility. As my wife, you should know about it too."

"Are you serious?" she asked.

"It's the cigaret commercials on TV," I explained. "It used to be you could recognize the hero by his tattoo, if he rode a horse and branded calves on their butts. Or you could recognize him by his hot eyes if he rode a barstool and picked up broads simply by flashing the brand of his butts . . ."

"You're not serious," she interrupted.

"... well, there's no tattoo parlor in our town and those Captain Marvel transfers kept washing off," I continued explaining. "Also, I always hated to turn on my hot eyes in a bar because it melted the ice. So I felt like an impotent sissy. But now the Camel cigaret people have shown me a practical way to prove my manhood."

"Don't take either hand off the steering wheel," she said. "But what does all this have to do with two coats?"

"I knew you'd get interested when the conversation got sexy," I said. "The point is that Camel doesn't fill up their cigarets with menthol or cork tips or coupons that'll furnish palaces. The TV commercials say their cigaret is straight tobacco, fine tobacco, with no gimmicks. Left unspoken is the obvious threat: if those fancy weakened cigarets can give you cancer, what can you get from Camels? It takes a brave man to find out."

"And then the brave man appears. He lights his Camel, squints his eyes, blows the smoke, SLINGS HIS COAT OVER HIS SHOULDER, and then strides off to watch a prizefight or win World War Three. No matter where he goes, he doesn't wear his coat, he hangs it over his shoulder. That's virile," I said.

"I've seen those commercials," she said. "But the hero, carrying the coat is in his shirt sleeves. You are wearing one coat and carrying the other one."

"Well, it's cold out," I explained. "They film those commercials under hot lights."

"Ok," she said. "But don't you think you could settle for just one coat until we get to the game. I don't think it's safe driving with a coat over your shoulder."

"If it were a tattoo, could I take it off to drive?" I asked out of the corner of my mouth, crinkling my eyes and twitching my cheek.

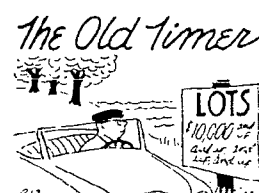

"You are serious. You think you're Humphrey Bogart," she said.

"Onward and Upward," I said.

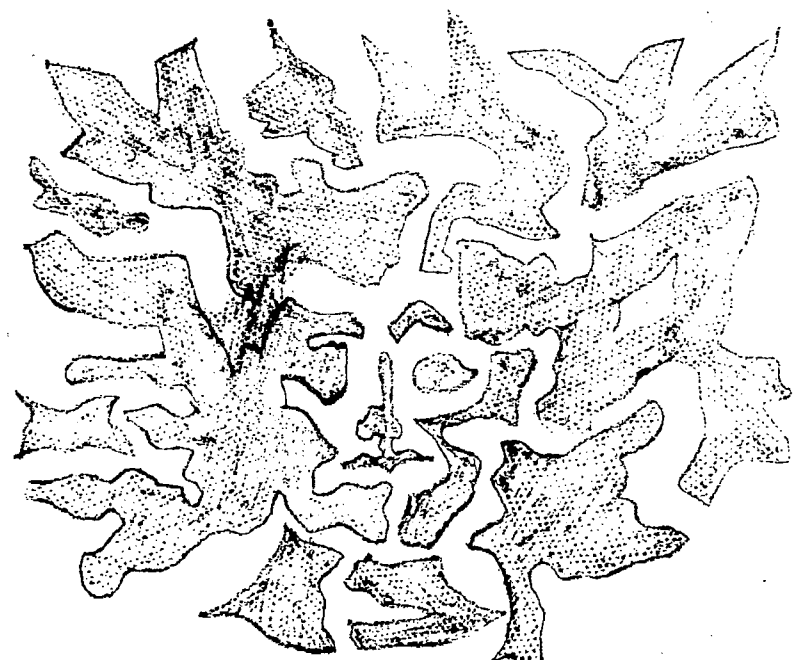

have to spend dollars to undo some of the things we have allowed to happen. We have allowed soil to erode into our lakes. Now it is going to cost to stop the erosion to protect these lakes.

You can support local effort to improve our environment.

## Silver Tea A Success

Last Friday, the thirteenth, Mercy Hospital Auxiliary held what was probably the most successful Silver Tea, financially and attendance-wise, in recent years.

Spared the deterrent of the usual blizzard, ladies from Grayling, Higgins Lake and Houghton Lake came to enjoy coffee, tea and beautifully shaped and decorated cookies.

At a table lovely in its autumn colors, two of our oldest active members, Mrs. Sisco and Miss Dunlop poured from traditional silver services, loaned for the occasion by Mrs. Vernon Blaha and Mrs. Jack Alef.

It would be almost impossible to acknowledge by name the donors of cookies, baked goods, gifts and door prizes. President Arlene Williams and Chairman Rosalia Matyn want everyone to know how much their contributions were appreciated.

We can't resist telling you that over four hundred dollars was raised and will be used toward the purchase of hospital equipment. Just what that will be is decided by hospital supervisors and the member's vote.

Mrs. Williams and Mrs. Matyn especially wish to mention Arnie Mauren for furnishing the place, Mr. Madsen of the Avalanche and WGRY for publicity, local merchants for window advertising, (Grayling Mercantile in particular), Mrs. Adelaide Laurence for the painting and everyone who helped in any way.

To all those who hoped to hang the picture in their homes, we must report that Mrs. A. G. Cruickshank is the lucky owner. The autumn centerpiece went to Mrs. Pat Hammon.

Your generous donations for the past few years have helped us to buy for the hospital a Stryker bed, respirators, an Isolette, and beauty equipment for the Extended Care Facility.

Anyone who is interested in joining the Mercy Hospital Auxiliary can attend the next meeting which will be held in the Auxiliary Room at the hospital on Friday, November 20th. Note: Change of date.

Helen Wainscott, Publicity

## Letters To The Editor

November 14, 1970

Dear Mr. Madsen,  
Last week my husband was hospitalized at Mercy Hospital awaiting transfer to St. Mary's Hospital, Saginaw.

So many interested people came to our aid and offered their time and services. We would like to thank Dr. Dosch, Gloria and Bill Kraus, Mitch and Irene Pieknik, John Morrill, Bob and Marilyn McClain. We would especially like to thank Chum Longworth, Howard Taylor, Sheriff Art Clough, Lt. Galloway, Cpl. Joe White, Deputy Greg Hufstetler. These men authorized the use of an ambulance and donated their time to drive Bob to the hospital in Saginaw. There were many more people involved in this kind act and I know I'll never be able to thank them all personally.

It is a wonderful feeling to know we are a part of Grayling and to have had so much unexpected help extended to us. Thank you all again.

Marie Mahaney and children

Thereupon he shall file the special assessment roll with the clerk, who shall present the same to the city council.

Sec. 9. Special assessment roll; review; hearing required, notice. — Upon receipt of a special assessment roll the city council shall order it filed in the office of the clerk for public examination; shall fix the time and place when it will meet and review such roll, and shall direct the city clerk to give notice of said hearing. Such notice shall specify the time and place of such hearing and shall be published once in the official newspaper of the city, not less than ten days prior to the date of such hearing. A copy of such notice shall also be sent, first class mail by the city clerk to each owner of property subject to assessment, as shown by the current assessment roll of the city.

Sec. 10. Objections, filing; confirmation of roll, vote required. (1) Any person deeming himself aggrieved by the special assessment roll or the improvement may file his objection thereto in writing with the clerk prior to confirmation of the roll.

(2) The city council shall meet and review the special assessment roll at the appointed time and place, or on the adjourned date, and shall consider a any written objections thereto. The city council may correct said roll as to any assessment or description of any lot or parcel of land, or other errors appearing therein. Any changes made in such roll shall be noted in the minutes of the hearing. After such hearing and review, the city council may confirm such special assessment roll with such corrections as it may have made, if any, or may refer it back to the assessor for revision, or may annul it and any proceedings in connection therewith.

(3) No assessment roll shall be confirmed except by the affirmative vote of four (4) members of the city council, if, prior to such confirmation, written objections to the proposed improvement have been filed by the owners of property who will be required to bear more than fifty per cent of the cost of the improvement. Upon confirmation of any special assessment roll, the city council shall determine the number of installments, not to exceed ten, in which the assessment may be paid, and shall determine the rate of interest to be charged on installments, not to exceed six per cent per annum. The clerk shall endorse the date of confirmation upon each special assessment roll. Such roll shall, upon confirmation, be final and conclusive.

Sec. 11. Lien on premises; impairment. — All special assessments contained in any special assessment roll, including any part thereof deferred as to payment, shall, from the date of confirmation of such roll, constitute a lien upon the lots or parcels of land assessed and until paid shall be a charge against the owners of the several lots and parcels of land. Such lien shall be the same character and effect as the lien created for city taxes and shall include accrued interest and penalties. No judgment or decree, nor any act of the city council vacating a special assessment, shall destroy or impair the lien of the city upon the assessed premises for such amount of the assessment as

may be equitably charged against the same, or that may be lawfully assessed thereon.

Sec. 12. Assessments, installments; due date. — The assessment, or the first installment thereof if divided into installments, shall be due and payable upon confirmation of the roll, but interest shall not commence until 30 days after such confirmation.

Sec. 13. Assessment roll; delivery to city treasurer; statements, mailing, sufficiency. — The assessment roll shall be transmitted by the clerk to the treasurer for collection immediately after its confirmation. The treasurer shall divide the assessments into installments when so ordered by the city council. The treasurer shall mail statements of the several assessments to the owners of the several lots and parcels of land assessed, as indicated by the records of the assessor, stating the amount of the assessment and the manner in which it may be paid. Failure to mail any such statement shall not invalidate the assessment or entitle the owner to an extension of time within which to pay the assessment.

Sec. 14. Delinquent assessments; addition to city tax roll. — Every special assessment, or the first installment thereof when divided into installments, shall bear interest at the rate of six per cent per annum, beginning 30 days after the same is due, and shall be collected by the treasurer directly from the special assessment roll. When any such special assessment, or the first installment thereof when divided into installments, shall have been due and unpaid for more than 30 days on the first day of May in any year, the same shall be reported by the treasurer to the assessor who shall spread the same, together with interest accrued on the entire unpaid balance, computed to July 1 of each year, plus a charge of six per cent of the amount of such assessment and such interest, on the July tax roll.

Sec. 15. Payments, interest; computation. — The whole of any assessment, or one or more installments thereof, may be paid during the first 30 days after confirmation of the roll, without interest or penalty. After expiration of this 30 day period, the second and subsequent installments, not yet reported to the assessor for adding to the July tax roll, may be discharged by paying the face amount of such installment, plus interest thereon computed to the date of payment.

Sec. 16. Special assessments; installments, due date; interest. — Second and subsequent installments shall be due and payable on the first day of May annually in each succeeding year following the year in which the first installment was due and payable, and shall be collected by the treasurer from the original special assessment roll. In addition to the principal amount of each annual installment, there shall be added thereto and collected from the special assessment roll by the treasurer as a part of each installment, the interest due on the entire unpaid balance of the special assessment computed to May first of the year in which the installment is due; provided, that when any annual installment shall have been prepaid as herein provided, then there shall be due and payable on May first of such year, only the interest upon the unpaid balance of the special assessment. In collecting each installment from the special assessment roll, the city treasurer shall have the same rights and remedies as provided in the charter for the collection of taxes. If any annual installment, the interest thereon or the amount due annually as interest on the unpaid balance of the assessment due in any year as herein provided, shall not be paid before the first day of May in any year when due, the amounts thereof shall be reported by the treasurer to the assessor and such amounts, together with a charge of six per cent of the amount of the installment and unpaid interest, shall be added to the July tax roll.

## County Planning Commission Will Hear Land Use Experts

By Willard Bosserman  
County Extension Director

The Roscommon County Planning Commission have invited Dr. Alvin House and Charles Kaufman, Michigan State University land use specialists to their November 16 meeting.

The meeting will be held in the Roscommon Township Hall located on M-55 starting at 8:00 p.m.

The two experts will discuss land use planning and land use regulations as they relate to development. This is part of a program by the County Planning Commission to acquaint the citizens of Roscommon County with the need for planning development.

County Commissioners and Township Supervisors are especially invited. The meeting gives them an opportunity to become better acquainted with the relationship between county and township zoning.

The public is invited to express their views on orderly development.

According to Thomas Whitchurch, Planning Commission Chairman, the meeting will be held in the Roscommon Township hall as a part of the new policy to meet in different parts of the county. This will make it easier for county citizens to

meet with the group. The commission welcomes citizen participation.

Alvin House specializes in local and state government. He is with the Agricultural Economics Department of Michigan State University. He has just completed a compilation of comments on assessor education certification.

Charles Kaufman, is District Extension Leader in Resource Development. His district is state wide.

Both House and Kaufman were on the land use series held in the County Building, Roscommon two years ago.

## Consumers Power Against House Wild Rivers Bill

LANSING — Consumers Power Company has told a joint Senate-House Conference Committee that proposed wild rivers legislation (HB 4270) would allow riverlands to be taken by confiscation via zoning without payment to landowners.

"This is not fair to the property owner," the Company said. "Whether it be Consumers Power Company or any individual. The Company believes that the fair and proper course for legislation to follow would be for the Senate-House Conference Committee to adopt a compromise version of HB 4270 embodying, in principle, the federal concept of maintaining wild rivers."

The Michigan house and senate have passed different versions of the bill. The matter now has gone to a six-man conference committee which will attempt to reconcile the differences and present an acceptable bill to both houses of the legislature.

Both versions of the bill embody the concept of creating a system of wild, scenic and recreational rivers. The senate version calls for cooperation between local governments and the Michigan Natural Resources Commission in planning and zoning. The Commission, however, would have no power to force zoning.

The house version goes much further, the Company said. For all practical purposes, the State, through the Natural Resources

Commission, would have what amounts to "land grab" powers to take riverlands by the expedient of zoning. The Company pointed out that the bill creates a super-zoning agency in the Commission with new and unprecedented powers. This authority would allow the Commission to zone the land if (1) the local unit of government did not adopt a zoning ordinance within one year, or (2) the commission was not satisfied with the zoning ordinance the local government did adopt.

Consumers Power Company said its position regarding wild rivers legislation is that natural river areas throughout the state can best be preserved or created by state legislation similar to the federal wild rivers act of 1968. The federal act provides for obtaining riverlands to preserve wild rivers through negotiated purchase or condemnation.

"The federal wild and scenic rivers act points out a way to resolve the differences between the house and senate," the Consumers Power statement said. "That is, to establish the wild river concept via obtaining land by purchase or condemnation (eminent domain). This procedure will permit the payment of equitable compensation for land, rather than confiscation through zoning."

Consumers Power Company recalled that it has long supported the principle of maintaining Michigan's rivers in a natural state, for the benefit of all the people of the state. The Company, moreover, has carried on this program over nearly half a century, planting more than 22 million trees to reforest riverlands that were all-but-destroyed by careless logging in the late 19th and early 20th centuries.

The Company owns approximately 700 miles of riverlands on the AuSable, Manistee, Pine and Muskegon Rivers. All of the land was acquired by purchase many years ago, to protect watersheds and thus the river flow necessary for hydroelectric generating plants on which the Company depended in those days.

## Need Blood

(Continued from Page 1)

type are not called for during this 21 day period, they become outdated. No pint of blood is returned to the Lansing Regional Red Cross Blood Center located in Lansing. The blood center delivers this blood to the Michigan Department of Health, also in Lansing.

There, the Health Department laboratory separates the cells from the plasma, and the plasma is made into various derivatives. These products, in turn, are available, without charge, to the patients.

Some of the products made from the plasma are Fibrinogen, used for treating hemorrhage; serum albumen, used for treating shock; and gamma globulin for treatment of measles and hepatitis.

Crawford County is one of 34 counties participating in the regional blood program. It is a service provided for residents through the Crawford County Chapter of the American Red Cross.

The bloodmobile will visit Crawford County in Grayling on December 3, 1970, from 12:00 p.m. to 6 p.m. All residents of this area are urged to come in to donate blood and help support their program, at Legion Hall.

## Rescues Man

(Continued from Page 1)

could be made to transport him to St. Marys Hospital in Saginaw where he will be operated on again to refuse his back.

The story of his wonderful deed would never have come to light if it were not for Gloria Kraus, who felt that he deserved some recognition for having saved a man's life, for which he is paying an expensive and painful price. She mentioned it to a local newsmen's wife, knowing that the press is just as interested in the good deeds that people do as well as the bad.

It was determined that he had in fact saved a man's life, and could not afford the cost of an ambulance to transport him to Saginaw.

This is where the quality of the people that makes Grayling such a great place to live came to the fore.

Sheriff Arthur Clough upon being contacted approved the use of the combination Ambulance Patrol car subject to the approval of the County Board of Commissioners. The Commissioners recognizing a special situation gave approval. There was no lack of volunteers at the Sheriff's Dept. but two deputies went out donating their free time to transporting Mahaney to Saginaw. Cpl. Joe White and Deputy Greg Hufstetler insured that he got their safely and with a minimum of pain.

Grayling is very proud of Robert Mahaney as must his wife and children. In the words of Mrs. Mahaney who has only lived here 20 months having come here from Owosso, what wonderful people and what a great place to live.

Meanwhile Mahaney is forced to leave his business, Ace Automatic Music Co. of Houghton Lake, unattended and his wife and eight children unsupported. A very high price indeed for getting involved.
